

JBL FilterPad

Filter Foam Pad

For clean and clear water

Set of two high-quality foam pads for effective biological filtering. Creates optimal conditions for the colonization of purifying bacteria.

JBL recommendation:

Cleaning: about every 6 months

Replacement: after several cleanings

When using the CristalProfi m with extension module always clean or replace the pads (filter or module) alternately.

Contents:

2 pads 35 ppi, approx. 120 x 90 x 20 mm
